This is truly a hidden gem that is being introduced to anyone who will listen to us. If you have been to the Rudy's for any event, you have "had to try" something from this place. This is a meat eaters pilgrimage – a holy land of sorts. Last year between all of us we ordered a couple thousand pounds of meats and there was nothing, and I mean nothing, but talk of what we are going to try next. Frigid Freeze is a small butcher shop with a family run atmosphere and great sausages and meats. Ask about their own raised sides of beef or pork. You can not beat their price or taste.

This is one of my favorite things in the whole world. As you know we have traveled all over the country chasing down great food, and without a doubt this is one of the top things I have ever had. I give you the chicken and cheese smoked sausage.

Heat it up or eat it cold. Garlic, cheese, chicken and whatever else they do to these things just works!

How about some home made slim meat sticks to snack on?

Little spicy, lottsa tasty.
